

# Introducing Alcumus Sypol's COSHH management software

Helping businesses to  
protect their people and  
comply with COSHH legislation

Alcumus Sypol has helped businesses to effectively manage their use of hazardous substances for over 40 years. By partnering with Sypol, businesses can guarantee that they are following the most up-to-date, compliant and safe guidance.

Sypol's COSHH management software (CMS) helps businesses to demonstrate a robust approach to compliance by increasing visibility of risks. The software stores over 750,000 COSHH risk assessments which are written and validated by our in-house team of scientists, allowing you time to focus on other business priorities.

Let us help you to increase your productivity and business efficiency by removing the time, resource and financial burden of managing COSHH.

## Technology that simplifies your COSHH management...

Instantly access, download & share compliant COSHH risk assessments.

View hazardous substance usage for individuals and your whole business.

Access the software anywhere, any time and using any device.

Manage your compliance actions through alert notifications.

Receive safer substance substitute suggestions to ensure minimal risk is posed to your people.

Receive unrivaled support from our helpdesk team of scientists, up to 7-days-a-week.

Management information and reporting available at the click of a button.

Unlimited user and system access 24/7/365.
